

Amendments to the Specification:

Please replace page 9 lines 1-8 with the following amended lines:

As depicted in Figure 1, PID 100 is enclosed a case housing, of which back case 108 (e.g., the back of PIC [[400]] 100) is shown. As depicted in Figure 1, SIM card door 107 is in an open position. SIM card door 107 is configured to accept SIM card 101, as SIM card 101 is slid into position from left to right as indicated by arrow 120. SIM card door 107 is configured to hold the SIM card 101 in the proper position using the integral holders 110, 111, 112, and 113. Holders 110-113 thus releasably confine and hold SIM card 101 in the proper position.
